												28	30			

Sunday morning dawned overcast, calm and dry which indeed remained that way, so the largest turnout representing both clubs had a very rideable 10 sections awaiting us.

Sections 1 – 5 were laid out amongst the fringe of the trees around the main clearing car park area utilising past used areas with new twists and turns, dry roots, a high hill climb and a slippery creek section on number 4 catching a few out.

Sections 6 – 10 were grouped together nicely a short ride into the forest with a few new sections set out by Bob Wade the previous Friday. Once again the classic section layout and placement seemed to agree with almost everyone, with challenges in all grades and many different lines and options to test the grey matter. Unfortunately Chris Presto twisted his knee towards the latter stages and was thankful of a quad bike dub out of section 7-8.

The earlier finishers cranked up the Barbie and kept an eye on updating the scoreboard blow by blow, which looked to be a draw* on the day at 29 points each. Almost all riders stayed on to socialise and down the odd deserved coldie.

Jake again topped the results and an impromptu gate post hopping and van ride kept us entertained afterwards.

Overall a very good interclub meeting with trials being the winner on the day.

Thanks to Kevin and John and all that assisted, you know who you are.

Jeff Hall.

* A subsequent recount has meant Ixion has the shield by 2 points.
