

MOMCC Trial September 09

The fourth round of the club champs was held on September 20th at the Infracon quarry at Linton. There were acres of rocks for Steve and Mitch Byers to set sections in for this event and they made a good job of it too with eight testing sections for the 11 riders who competed. The weather played it's part too with sunshine all day although there was a cool breeze around a few sections.

I think everyone enjoyed their ride. See you all at the next trial on October 18th at the end of Kahuterawa Road, Tiritea. This event will be the final round of the club champs and also your final chance of practice before the NZ Champs the following weekend on the Kapiti Coast.
